

## **NARI's Vision for the Future: Adapting to a New Reality**

WHEREAS the mission of the National Association for the Remodeling Industry (NARI) is to advance and promote the professionalism of the remodeling industry;

WHEREAS the NARI mission is more critical than ever as contractors are remodeling America in the wake of the pandemic;

WHEREAS remodelers are leading homeowners through various adaptations nationwide, from remote work from home, to aging in place;

WHEREAS NARI has developed valuable education, certification, accreditation, business, marketing, and networking resources that benefit all NARI members;

WHEREAS all NARI members receive outstanding benefits, and NARI members in chapters receive an additional layer of valuable networking and business benefits tailored to their local markets;

WHEREAS at-large NARI membership is an effective way to advance the professionalism of remodelers who do not live near a chapter;

NOW, THEREFORE, BE IT RESOLVED that NARI National will

Carry the NARI mission into the future, building on its current strengths and extending its reach into every community in the United States;

Affirm its dedication to advancing and promoting the professionalism of the remodeling industry nationwide by leveraging the strengths of NARI national and NARI chapters;

Work to grow at-large membership in areas of the United States that are currently without chapters; and

Establish a new chapter when membership in an area grows large enough to sustain a new chapter.
